

FELIX SCHOBERWALTER

Mannheim, 68199 Germany | +49 157 78733060

schoberwalterfelix@gmail.com

WWW: Bold Profile

Curious full-stack developer with a strong focus on modern AI technologies. In my previous role, I built a production-ready AI workflow—from data collection with web crawlers to automation powered by large language models—earning a reputation for reliability and confidence in a professional environment. A long-standing interest in LLMs and cutting-edge frameworks helps me learn new tools, languages, and methods quickly and apply them effectively. In my spare time I create web and AI side-projects, deepening my skills in TypeScript, Next.js, Supabase, and Prisma while exploring practical ways to embed LLMs into products. I'm now looking for a role where I can deliver tangible value, leverage my expertise, and continue to grow.

Portfolio
